AREA RESTRICTIONS

Description

An ID code of a specific polygon. The same decision paper may include several polygons with individual ID codes. First two digits of the code are given based on the restriction type: ML=Traffic way. Next two digits are given based on the ELY-centre. Rest of the numbers are specific to each polygon.

ELY-centre codes:

01 Uudenmaan ELY-keskus

02 Varsinais-Suomen ELY-keskus

03 Hämeen ELY-keskus

04 Kaakkois Suomen ELY-keskus

05 Etelä Savon ELY-keskus

06 Pohjois Savon ELY-keskus

07 Pohjois Karjalan ELY-keskus

08 Etelä-Pohjanmaan ELY-keskus

09 Keski Suomen ELY-keskus

11 Pohjois Pohjanmaan ELY-keskus

12 Kainuun ELY-keskus

13 Lapin ELY-keskus

19 Pirkanmaan ELY-keskus

Nimi

The name given in the decision paper, if it is specifying the area. If the decision paper does not include a name, the area has been given a name during the digitizing based on nearby lake, river, bay or similar geographical feature.

NopRaj_kmh

Speed restriction as numbers, km/h

NopRaj_Kn

Speed restriction as numbers, knots/hour

TehoRaj

Power restrictions as text

RajLuokka

Restriction class as text

Selite

Explanation for deviations from the restrictions

VoimaantuloPvm

Date when the restriction became to effect

VoimassaOlo

Restriction time

RajAikaTxt

Restriction time as text (restriction is in effect for certain period e.g. 1.5.-15.6.)

Lisatieto

Additional information

Lisatieto2

Additional information

PaatosTunnus

Decision number, given by the decision maker

DiaariNro

The record number of the decision

PaatosPvm

The date of the decision

Paattaja	Decision maker
DigPohja	Base material used for the digitizing
DigOrg	The organisation where the digitizing has been done
MuutosPvm	Date when the information has been modified
Linkki	Decision document linked to the restriction
