1. Feature Attribute Descriptions

YKRAsutus10

Feature Attribute

Ykr10Nro

Subtype

Description

Area code number in YKR Urban structure dataset

Settlement subdivision class (1= Densely build-up area, 2=village, 3=small village, 4= sparsely populated rural area)

MaaPAIa_km²

Land area in km²

VesiPAIa_km²

Water area in km²

Vaesto90Lkm=

Population 1990

Vaesto95Lkm=

Population 1995

Vaesto00Lkm=

Population 2000

Vaesto05Lkm=

Population 2005

Vaesto10Lkm=

Population 2010

Tyop90Lkm

Number of workplaces 1990

Tyop95Lkm

Number of workplaces 1995

Tyop00Lkm

Number of workplaces 2000

Tyop05Lkm

Number of workplaces 2005

Tyop10Lkm

Number of workplaces 2010

DOMAINYKRASUTUSTAULU

Feature Attribute

Arvo

Description

1, 2, 3, 4

Subtype

Settlement subdivision class (1= Densely build-up area, 2=village, 3=small village, 4= sparsely populated rural area)

2. Additional information

The latest updated version is available through OIVA information service (www.ymparisto.fi/oiva).

This every five years updated version includes only land area feature attribute information.

The every five year updated datasets from 1990 onwards and yearly updated versions from 2011 onwards including information on population and workplaces are available for Environmental Administration's internal use.

3. UML-model

«CodedValueDomain» YkrAsutus
